

Wasan Abdullah Al-Shahrani

Eastern Region, Dammam

was.abd93@gmail.com – 0550968065

Career Objective

Computer Science graduate with hands-on experience in front-end development and web-based systems. Skilled in Vue.js, JavaScript, and UI optimization, with practical experience in building and improving web applications. Seeking an entry-level position to contribute to developing efficient, user-friendly, and scalable systems.

Educational Background

Bachelor of Computer Science

King Khalid University – Graduated: 2025

GPA: 3.37 / 5

Professional Experience

- **IT Applications Programmer (Tamheer Program)**

Royal Commission Health Services Program, Jubail Aug 2025 – Feb 2026

- Improved and optimized the hospital website frontend using Vue.js, Bootstrap, and CSS, enhancing responsiveness across multiple devices.
- Ensured compliance with Saudi Digital Government Authority (DGA) standards for accessibility and user experience (UX).
- Collaborated with IT teams to develop, test, and maintain web applications with high performance and stability.
- Identified and resolved UI issues, improving usability and user experience.

- **IT Intern**

King Fahd Military Medical Complex (KFMMC) June 14, 2022 – July 14, 2022

- Developed a web-based contract management system between the hospital and external companies using HTML, CSS, JavaScript, and PHP.
- Designed a user-friendly interface to manage and display contract data efficiently.
- Implemented core functionalities including data entry, updating, and retrieval of contract records.
- Contributed to digitizing manual processes, improving workflow efficiency and reducing errors.

- **Personal Portfolio Website Developer** <https://saudiastrocode.com>

Designed and developed a personal website for showcasing projects and skills.

Certifications & Professional Accreditations
